ADRIAN VAN V. ARAPOC

GAME DEVELOPER · UNITY PROGRAMMER

Davao City, Philippines | +63 951 841 3788 | adrian.arapoc12@gmail.com
cosmicshin.netlify.app | cosmicshin.itch.io | github.com/Cosmic-Shin

• SUMMARY

Third-year Entertainment and Multimedia Computing student majoring in Game Development at the University of Mindanao. Lead or solo programmer on six complete games built with Unity and C#, each finished in one month or less, covering gameplay systems, enemy AI, online and local multiplayer, and UI. Seeking a game programming or game development internship, or a junior role at an indie studio.

• EDUCATION

UNIVERSITY OF MINDANAO — *Davao City*
Bachelor of Science in Entertainment and Multimedia Computing (BSEMC), Game Development — 3rd Year · Present

• SKILLS

Programming	C#, JavaScript, HTML, CSS
Engine & Networking	Unity, Photon, Unity Netcode for GameObjects
Art Tools	Blender, Aseprite, Photoshop, Clip Studio Paint
Workflow	Git, GitHub, itch.io, Netlify
Strengths	Gameplay systems & AI, puzzle & state logic, multiplayer, UI/HUD, rapid prototyping & scoping

• GAME PROJECTS

SUSSY EMPLOYEES — *Online multiplayer social deduction · Unity*
Lead Developer & Pixel Artist — Team of 3 · 1 month

- Built the online multiplayer networking, character movement, task system and stealth sabotage mechanics for an Among Us-inspired office game.
- Designed the 2D UI and HUD and drew original pixel-art assets, including a character customizer for TV-head outfits.

SHITTY SHIFT — *3D horror puzzle · Unity · playable in browser (WebGL)*
Lead Developer & Systems Programmer — Team of 5 · 1 month

- Led technical development: core mechanics, puzzle logic, state management and player interaction systems.
- Modeled 3D environment props, built the UI/HUD and tuned atmospheric lighting to build tension.

CALM BEFORE THE RUSH — *Educational simulation puzzle · Unity*
Solo Programmer & Technical Lead — Team of 2 · 1 month

- Programmed the full game architecture, including puzzle mechanics, a commuting simulation loop, UI integration and state management, for a game about sustainable commuting in the Philippines.

MILLENNIAL JOINT — *Local co-op cooking game · Unity*
Lead Programmer — Team of 3 · 1 month

- Built the core architecture, game loops and local multiplayer input for an Overcooked-inspired party game, plus vector UI and menus designed to stay readable during fast play.

VOCAL STRIKE — *2D arcade shooter · C#*
Lead Developer & 2D Artist — Team of 2 · 7-day game jam

- Built the combat loop, enemy behavior and multi-phase boss fights, and led the 2D art and UI, all within seven days.

LUCK OF SPEED — *3D arcade racer · C#*
Solo Developer — 1 month

- Built the car controller, opponent AI, random-effect item boxes and progression system.

PORTFOLIO WEBSITE — *cosmicshin.netlify.app · HTML, CSS, JavaScript*
Solo Developer — Ongoing

- Hand-coded and deployed a portfolio with six color themes, an achievement system, an embedded Unity WebGL build and keyboard accessibility.
